

BeeLab 高级 Raid 安装 (R110i,R510i,R710i)

- Bios 中 MegaRAID 配置 Raid5
Boot Manager
 - Adapters and UEFI Drivers
- When the OS startup menu is shown, press 'e' key.
Select the boot command line("linuxefi ..."), use below parameters, then proceed.
 - For Onboard SATA RAID (R100),
use "inst.dd modprobe.blacklist=ahci" parameter
 - For Onboard SAS RAID (R300),
use "inst.dd modprobe.blacklist=iscsi" parameter
 - For Onboard SATA RAID (R110),
use "inst.dd modprobe.blacklist=ahci" parameter
- When prompted, browse the USB flash drive and select the iso file.
